### UFO OVER WESTLAKE OHIO

Mr. Robert Alaimo, who is a mgr. of Westlake Cleaners, on May 6, 1963 sighted a round star-like ufo over Westlake. It was as big as a half-dollar at arms length. It seemed to have a falling motion at times. He saw it while he was on to his fiance's house. Se also saw the object. It went out of sight when a plane came from the opposite direction. He estimated it's altitude to be 2-3,000 feet. It also turned a red color near the end of the sighting. Credit Mr. Allen Manak Cleve. UFOlogy Proj.

### IMPORTANT WARNING!!! THIS IS URGENT!!!

The release of the new book The World of Flying Saucers by Donald H. Menzel and Lyle G. Boyd presents a new public relations problem for all serious UFO investigators. Menzel is notorious from his past writing on the subject; using twisted facts in order to prove his "ain't no such" hypotheses concerning the UFO.

This new effort however, contains something that no previous work has had; the book claims to contain "previously top-secret UFO records of the Air Force". Of course, it is obvious to the experienced investigator that the AF, if it released anything, would only release the easily explained reports. And yet to the unknowing public who gets the book, it will appear that Menzel and his compatriate have explained all cases in the AF files.

The Science Fiction Book Club, in reviewing the book, calls it "The first book to approach the subject from a true, scientific viewpoint". To anyone who has read Prof. C.A. Maney & Richard Hall's The Challenge of UFOs, this claim is, of course utterly absurd. However, to the unknowing reader with no other reference, this statement may be accepted on face value. As you no doubt now can see, this does present a challenge to us.

We've got to let the public know that Menzel & Boyd effort represent only one side of the story. This challenge must be met now, before the book does any damage. It's up to the UFOlogists. Do we meet it?

(IMPORTANT...IT IS URGENT THAT THIS BE REPRINTED IN ALL UFO PUBLICATIONS----thank you, Allen Greenfield Chairman Newspaper Comm. Regular Look\*See editor.
